

# NDIS & Funding

Depending on your circumstances there are several funding options that may be available to access our service (occupational therapy) and products (assistive technology / equipment), including:

- National Disability Insurance Scheme (NDIS) (*including Occupational Therapy*)
- Transport Accident Commission (TAC)
- Medicare – Care Plan / GP Management Plan (*including Occupational Therapy*)
- My Aged Care Plans (*including Occupational Therapy*)
- Private Insurance – Extras Cover (*including Occupational Therapy*)
- Self-funding (*payment plans available*)
- Philanthropic Funding (*program specific*)

We encourage you to check with your GP, specialist or health fund to confirm your funding details and eligibility for *occupational therapy* and *assistive technology*.

If you are an NDIS Participant, you will meet with a LAC or NDIS Planner to develop your NDIS Plan. It will contain information about you, your goals and the supports you need to achieve your goals.

In your NDIS Plan, it is very important to show a clear link between your goals and the Assistive Technology you need to achieve them – and we can provide you with the details you need prior to your planning meeting.

If you haven't already enrolled with the NDIS, please visit the [NDIS website](#) to confirm your eligibility, and complete your enrollment.
