

What does Solve do?

Page updated: 29 March 2019

We are a not-for-profit organisation providing state-wide services and custom Assistive Technology (AT) solutions for:

- people of all ages living with disability;
- older people (over age 65);
- people with chronic diseases such as diabetes and stroke;
- people with neurodegenerative disease conditions including dementia and autism;
- people with gradual functional decline;
- families and carers for any of the above.

Our services include:

- Specialised clinical assessment and technical advice from an Occupational Therapist (OT) regarding AT;
- Designing and building custom AT otherwise commercially unavailable;
- Modification to commercially available equipment (e.g. wheelchairs, walkers, and furniture);
- Freedom Wheels Customised Bike Service.

With both metropolitan and regional Occupational Therapists and over 100 state-wide Technical Volunteers, we work with you, your family and other health professionals to help you achieve your goals and *live without limits*. Our experienced workforce will assess and address your goals, abilities and functionality to provide you with options for practical, cost-effective and appropriate AT solutions.

Accessing Solve Services

Solve services are available to you, your family and carers - we come to you!!

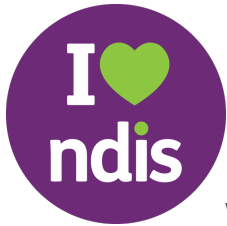

You can access funding for AT services in a variety of ways:

- Medicare - Care Plan / GP Management Plan (*including Occupational Therapy*)
